

Fall “group” Takeaway

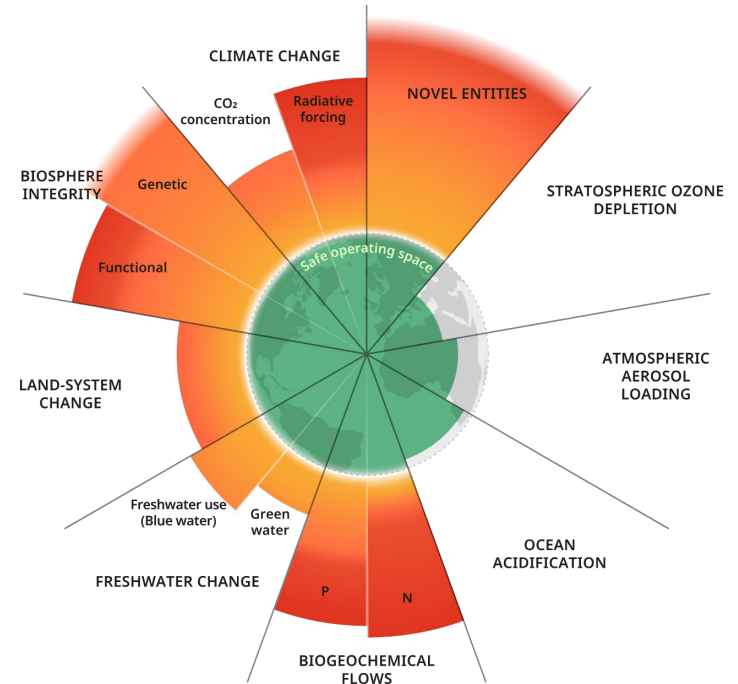

Anna, Ever, Dhrishya, Minnie, Albert

POLYCRISIS VISION

Polycrisis= the simultaneous occurrence of several catastrophic events. Why so much is going wrong at the same time?

- *Circular economy model*
- *Planetary boundaries*
- *Social foundation*

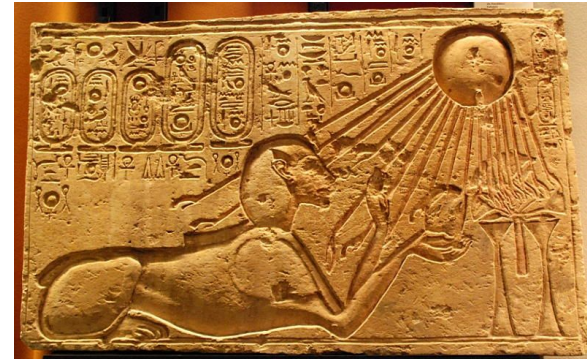

ABSTRACTIONS

- We live in a society full of abstractions. The humanity is lost in abstractions some steps beyond or behind reality.
- Being humans has been reduced as being users.
- A transition from human-centered design to solar-centered design
- Responsibility as a designers of how we use the words because the words can shape the worlds.
- Abstractions unite but we can be lost in them and can divide

SOLAR-CENTERED DESIGN

- Being more in synch with natural rhythms, especially with our star, who is the phenomenon that reigns most of the biological rhythms on Earth.
- Energy availability
- Circadian rhythm
- Rethink our activity cycle
- Learning from the wisdom of indigenous and native cultures that follow/respect natural solar cycles

TIME AS CYCLE

- Time concept as a torus
- Important factor to consider as the events are going to “repeat”
- "Eternal recurrence", Ouroboros, (Nietzsche)
- Different timelines
- Circularity and infinite dimensionality of time
- Repetition in ancient texts across th

INTERDISCIPLINARITY

- Now the technologists are more aligned with scientists, biologists, ecologists
- Collaboration of knowledge
- Sharing of different points of view
- More inclusive, multicultural direction
- Enables balance of power because of collaboration and not imposition
